Please note that all illustrations shown in this web site are not photos - with the exception of above photo - taken of decorated coffee mugs but are computer generated virtual mug decorations. These decorations only show what an actual decoration might look like and are not necessarily in the dimensions and/or proportions or colors that can be decorated on the actual coffee mugs. We also reserve the right to change - without notice - the actual decorations from those shown in our gift mugs web site. We have very [detailed information](#) on what we can actually decorate on our white coffee mugs in our [Frequently Asked Questions](#) section of this web site.
